

MANAGING YOUR DENTAL INSURANCE

There are more than 30,000 dental plan contracts in Ontario, and each one is a little different from the next. As a smart consumer, you must make it your job to understand the details of your dental plan, and to supply your dental office with necessary information or any supplementary information. You are also responsible for making arrangements for payment to your dentist for the dental care received. Not all dental treatments are eligible or fully reimbursable. To better understand which dental hygiene fees are covered by your dental insurance and which are not, please take a moment to complete this form as best as you can.
